RFP 13-03

Design of an Intersection Improvement for Spalding Drive at Chamblee-Dunwoody Road ADDENDUM #1

Receipt of this addendum should be acknowledged in your proposal.

Failure to do this may result in rejection of proposal.

Please note the following changes/clarifications in regard to the above reference bid.

The Survey should include location of all trees, 4' caliper and greater, within the limits of construction.

Questions & Answers:

1. Question: In preparing our Cost Proposal, should we include fees for preparing right-of-way and easement plats, or should we include a per plat allowance, similar to the right-of-way staking allowance? If this is to be included in the Total Cost, how many plats should we estimate will be needed?

Answer: A per plat allowance can be included separate from the lump sum cost.

2. Question: In the Scope of Services, a Staging Plan is included "if necessary". Should the fees associated with this be included in the Total Cost, or as an "if required" allowance?

Answer: If necessary the staging plan can be included as an allowance.
